RECYCLING/TSD HANDLING AGREEMENT
(GENERATOR AND RECYCLING/TSD CONTRACTOR)

WHEREAS, Generator produces spent chemicals which may be considered to be "hazardous" or "toxic" within the meaning of applicable federal and state laws ("Spent Chemicals") and which therefore must be transported, stored, disposed of, recycled, treated or re-used ("Handled") in accordance with applicable laws pertaining to hazardous or toxic chemicals.

WHEREAS, Recycling/TSD Contractor owns or controls facilities which are capable of Handling Spent Chemicals in accordance with all applicable laws pertaining to such activities;

WHEREAS, the parties desire to enter into an arrangement for the Handling of Spent Chemicals, all on the terms and conditions hereinafter set forth;

NOW, THEREFORE, in consideration of the covenants and agreements contained herein, the undersigned agree to the following terms and conditions of this Recycling/TSD Handling Agreement as well as to the Standard Terms and Conditions Governing the Handling of Spent Chemicals ("Standard Terms and Conditions"), which are attached to the Generator copy of this Agreement and are incorporated herein by reference. All capitalized terms not otherwise defined herein shall have the meanings set forth in the Standard Terms and Conditions.

1. SPENT CHEMICALS SHIPMENT. The completed Uniform Hazardous Waste Manifest or appropriate state manifest which is identified by the reference number appearing in a space below the signatures to this Agreement and which pertains to the Spent Chemicals Shipment Handled under this Agreement is hereby incorporated herein by reference. Such manifest describes certain Spent Chemicals which Generator hereby agrees to ship to Recycling/TSD Contractor and which Recycling/TSD Contractor agrees to Handle at the facility named in such manifest ("Designated Facility").

2. COLLECTION, TRANSPORTATION, STORAGE AND DELIVERY. All Spent Chemicals Shipments shall be transported to Recycling/TSD Contractor by Univar USA Inc., a Washington Corporation ("Univar USA"), or an entity designated by Univar USA to provide transportation and temporary storage services.

3. PAYMENT. It is understood that Univar USA shall pay Recycling/TSD Contractor for Handling the Spent Chemicals Shipment (or, where money is owed to Generator, Univar USA shall pay Generator for the Spent Chemicals Shipment) according to the terms of a certain Master Spent Chemicals Handling Agreement between Recycling/TSD Contractor and Univar USA. Recycling/TSD Contractor shall not look to Generator for payment for Handling the Spent Chemicals Shipment, except for certain extraordinary charges incurred in connection with Non-conforming Spent Chemicals as set forth in the Standard Terms and Conditions.

4. INDEMNIFIED PARTY. As used in the Standard Terms and Conditions, the term "Indemnified Party" shall mean either Recycling/TSD Contractor or Generator, depending upon which party claims indemnification under this Agreement.

5. GENERATOR INDEMNIFICATION. Generator shall defend, indemnify and hold harmless Recycling/TSD Contractor, its past, present and future officers, directors, employees, agents, insurers and successors (hereinafter in this Paragraph referred to collectively as "Recycling/TSD Contractor") from and against any and all Loss which Recycling/TSD Contractor may sustain or incur, be responsible for or pay out as a result of:

(a) Generator's breach of any representation, warranty, term or provision of this Agreement; or

(b) The negligence or intentional misconduct of Generator, its employees, agents, representatives or subcontractors in the performance of this Agreement, provided that such indemnification shall not apply to the extent such liabilities result from Recycling/TSD Contractor's negligence or intentional misconduct or from a breach of this Agreement by Recycling/TSD Contractor.

6. NAMES AND ADDRESSES OF PERSONS TO WHOM NOTICE IS TO BE GIVEN. The name of the person to whom notice is to be given on behalf of Generator appears on the Uniform Hazardous Waste Manifest in Item 16 or the appropriate state manifest. The name of the person to whom notice is to be given on behalf of Recycling/TSD Contractor appears on the Uniform Hazardous Waste Manifest in Item 20 or the appropriate state manifest. The addresses of persons to whom notice is to be given appear on the Uniform Hazardous Waste Manifest under Item 3 (for Generator) and Item 9 (for Recycling/TSD Contractor) or the appropriate state manifest.

RECYCLING/TSD HANDLING AGREEMENT
(GENERATOR AND RECYCLING/TSD CONTRACTOR)

The undersigned hereby agree that, upon execution of this Recycling/TSD Handling Agreement, there is a binding contract between them according to the above terms and conditions, as of the day and year appearing below.

TRANSPORTATION/HANDLING AGREEMENT

(GENERATOR AND UNIVAR USA)

WHEREAS, Generator has made arrangements with a Recycling/TSD Contractor to transport, store, treat, dispose of, recycle, or re-use (which terms are hereinafter referred to as to "Handle") certain spent chemicals which it has generated and which may be considered to be "hazardous" or "toxic" within the meaning of applicable federal and state laws ("Spent Chemicals");

WHEREAS, Univar USA is in a position to transport and otherwise assist in the Handling of such Spent Chemicals;

NOW, THEREFORE, in consideration of the covenants and agreements contained herein, the aforementioned parties agree to the following terms and conditions as well as to the Standard Terms and Conditions Governing the Handling of Spent Chemicals ("Standard Terms and Conditions"), which are attached to the Generator Copy of this Agreement and are incorporated herein by reference. All capitalized terms not otherwise defined herein shall have the meanings set forth in the Standard Terms and Conditions.

1. DELIVERY. Prior to the execution of this Agreement, Generator has selected the Designated Facility set forth in the Uniform Hazardous Waste Manifest or appropriate state manifest for the Handling of Spent Chemicals Shipment, which manifest is identified by the reference number appearing above the signatures to this Agreement. Generator has also completed all necessary arrangements for the Handling of such Spent Chemicals Shipment, including the execution of a Recycling/TSD Handling Agreement. Univar USA shall deliver the Spent Chemicals Shipment to such Designated Facility.

2. CHARGES. The amount to be paid by Generator to Univar USA for the services to be rendered hereunder is set forth on Univar USA's Standard Schedule of Posted Prices for the Approved Spent Chemicals Stream to which the Spent Chemicals Shipment belongs, subject to all terms, conditions, and credit provisions contained therein. Univar USA shall pay Recycling/TSD Contractor for all services in connection with the Handling of the Spent Chemicals Shipment, except for certain extraordinary charges incurred in connection with all or any portion of a Nonconforming Spent Chemicals Shipment, which Generator has agreed to pay.

3. WORK ON GENERATOR'S PREMISES. Generator agrees to provide Univar USA, its employees, agents, and subcontractors, a safe working environment for any work, in performing this Transportation/Handling Agreement which must be undertaken on premises owned or controlled by Generator, except for hazardous environmental work conditions resulting from spills or other accidents which Univar USA has caused.

4. INDEMNIFICATION. As used in the Standard Terms and Conditions, the term "Indemnified Party" shall mean either Univar USA or Generator, depending upon which party claims indemnification under this Agreement. Generator and Univar USA shall each defend, indemnify, and hold harmless the other, its past, present and future officers, directors, employees, agents, insurers and successors (hereinafter in this Paragraph referred to collectively as "Univar USA" or "Generator") from and against any and all Loss which Univar USA or Generator may sustain or incur, be responsible for or pay out as a result of other's breach of any representation, warranty, term, or provision of this Agreement.

5. UNIVAR USA INDEMNIFICATION. Univar USA shall defend, indemnify and hold harmless Generator from and against any and all Loss which Generator may sustain or incur, be responsible for, or pay out as a result of:

(a) Univar USA's breach of any representation, warranty, term or provision of this Agreement;

(b) any action or failure to act in connection with a Spent Chemicals Shipment which occurs during the period of time when such Shipment is in the possession of Univar USA or Univar USA's agents, employees or subcontractors regardless of whether Univar USA or such persons are at fault with respect to such Loss except where:

(i) such Loss arises from the action or the failure of Generator or any of its agents or employees,

(ii) a Nonconforming Spent Chemicals Shipment is being returned to Generator or disposed of in some alternate manner following the giving of a Rescission Notice, or

(iii) Generator is transporting the Spent Chemicals Shipment, either as a subcontractor to Univar USA or otherwise;

(c) the negligence or intentional misconduct of Univar USA, its employees, agents, representatives or subcontractors in the performance of this Agreement, provided that such indemnification shall not apply to the extent such liabilities result from Recycling/TSD Contractor's negligence or intentional misconduct or from a breach of this Agreement by Recycling/TSD Contractor.

6. NAMES AND ADDRESSES OF PERSONS TO WHOM NOTICE IS TO BE GIVEN. The name of the person to whom notice is to be given on behalf of Generator appears on the Uniform Hazardous Waste Manifest in Item 16 or the appropriate state manifest and the address of such person appears on the Uniform Hazardous Waste Manifest in Item 3 or the appropriate state manifest. The name and address of the person to whom notice is to be given on behalf of Univar USA is as follows:

Director of Chemcare

LAND DISPOSAL NOTIFICATION AND CERTIFICATION FORM (PHASE IV)

Generator Name: Alaskan Copper Works Manifest Doc. No.: _____
 Profile Number: C15689 State Manifest No.: _____

1. Is this waste a non-wastewater or wastewater? (See 40 CFR 268.2) Check ONE: Nonwastewater Wastewater
 2. Identify ALL USEPA hazardous waste codes that apply to this waste shipment, as defined by 40 CFR 261. For each waste code, identify the corresponding subcategory, or check NONE if the waste code has no subcategory. Spent solvent treatment standards are listed on the following page. If F039, multi-source leachate applies, those constituents must be listed and attached by the generator. If D001-D043 requires treatment of the characteristic and meet 268.48 standards, then the underlying hazardous constituent(s) present in the waste must be listed and attached.

REF #	3. US EPA HAZARDOUS WASTE CODE(S)	4. SUBCATEGORY ENTER THE SUBCATEGORY DESCRIPTION. IF NOT APPLICABLE, SIMPLY CHECK NONE		5. HOW MUST THE WASTE BE MANAGED? ENTER LETTER FROM BELOW
		DESCRIPTION	NONE	
1				
2				
3				
4				

To identify F039 or D001-D043, underlying hazardous constituent(s), use the "F039/underlying Hazardous Constituent Form" provided (CWM-2004) and check here:
 If no UHCs are present in the waste upon its initial generation check here:
 To list additional USEPA waste code(s) and subcategory(ies), use the supplemental sheet provided (CWM-2005-D) and check here:
 Disposal facility monitors for all UHCs check here
 If waste will be managed in a system regulated under the CWA, or a Class 1 injection well under the SDWA check here

HOW MUST THE WASTE BE MANAGED? In column 5 above, enter the letter (A, B1, B3, B4, B5, B6, C, D or E) below that describes how the waste must be managed to comply with the land disposal regulations (40 CFR 268.7). Please understand that if you enter the letter B1, B3, B4, B5, B6, or D you are making the appropriate certification as provided below. (States authorized by EPA to manage the LDR program may have regulatory citations different from the 40 CFR citations listed below. Where these regulatory citations differ, your certification will be deemed to refer to those state citations instead of the 40 CFR citations.)

A. RESTRICTED WASTE REQUIRES TREATMENT

This waste must be treated to the applicable treatment standards set forth in 40 CFR 268.40.
 For Hazardous Debris: This hazardous debris is subject to the alternative treatment standards of 40 CFR 268.45.

B.1 RESTRICTED WASTE TREATED TO PERFORMANCE STANDARDS

"I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification. Based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the treatment standards specified in 40 CFR 268.40 without impermissible dilution of the prohibited waste. I am aware there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

B.3 GOOD FAITH ANALYTICAL CERTIFICATION FOR INCINERATED ORGANICS

"I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification. Based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the nonwastewater organic constituents have been treated by combustion in units as specified in 268.42 Table 1. I have been unable to detect the nonwastewater organic constituents despite having used best good faith efforts to analyze for such constituents. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

B.4 DECHARACTERIZED WASTE REQUIRES TREATMENT FOR UNDERLYING HAZARDOUS CONSTITUENTS

"I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 or 268.49, to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

B.6 RESTRICTED DEBRIS TREATED TO ALTERNATE PERFORMANCE STANDARDS

"I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with treatment standards specified in 40 CFR 268.45 without impermissible dilution of the prohibited wastes. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

C. RESTRICTED WASTE SUBJECT TO A VARIANCE

This waste is subject to a national capacity variance, a treatability variance, or a case-by-case extension. Enter the effective date of prohibition in column 5 above.

D. RESTRICTED WASTE CAN BE LAND DISPOSED WITHOUT FURTHER TREATMENT

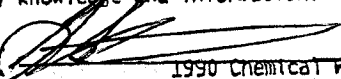

"I certify under penalty of law that I have personally examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D. I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

E. WASTE IS NOT CURRENTLY SUBJECT TO PART 268 RESTRICTIONS

This waste is a newly identified waste that is not currently subject to any 40 CFR Part 268 restrictions.

I hereby certify that all information submitted in this and all associated documents is complete and accurate, to the best of my knowledge and information.

C. General Information

This waste stream is comprised of the following: (check only one item)

1. ☐ **Non-PCB Ballasts** (these are ballasts manufactured after July 1978 or ballasts which are labeled "No PCBs".)
DOT Description: Non-regulated ballasts for recycling
2. ☐ **Non-TSCA, non-leaking PCB containing Light Ballasts** (these are ballasts which contain an intact non-leaking PCB containing capacitor and contain < 50 ppm PCBs in the potting compound.)
DOT Description: RQ Polychlorinated Biphenyls, liquid, 9, UN2315, PG III
3. ☐ **TSCA Regulated Non-leaking Ballasts** (these are ballasts which contain a non-leaking capacitor and/or > 50 ppm PCBs in the potting compound.)
DOT Description: RQ Polychlorinated Biphenyls, liquid, 9, UN2315, PG III

PUBLIC NOTICE

Regarding the Modification of a RCRA Part B Permit for a Hazardous Waste Management Facility

An existing permitted hazardous waste management facility, operated by Univar USA Inc. and located at 8201 South 212th Street in Kent, Washington (EPA ID No. WAD 067548966) has modified its operating permit. There are two changes. These changes are classified as Class 1 Modifications not requiring prior approval of the Washington Department of Ecology, pursuant to the Washington State Regulations of WAC 173-303-830. Of the three classes of modifications, Class 1 modifications are considered the most minor and do not affect facility operating practices.

The permitted facility operations currently are limited to temporary storage of containerized dangerous waste, either generated onsite or received from offsite industrial customers (generators). There is no treatment or disposal of dangerous waste onsite.

Under this modification, the following changes have been made: (1) There has been a change to the Alternate Emergency Coordinator #2 for the facility and (2) We plan to discontinue use of the *Waste Profile Confirmation Sheet* specified in the facility's Waste Analysis Plan (WAP). As mentioned above, these changes are Class 1 Modifications not requiring prior agency approval as provided for in WAC 173-303-830 (4), Appendix I (A)(1), (B)(6)(d) and (B)(2)(a).

The current operating permit, the Class 1 Modifications and supporting documentation can be viewed during normal business hours (week days from 8 AM to 4 PM) at the Washington Department of Ecology, Northwest Regional Office located at 3190 160th Avenue S. E. Bellevue, WA 98008-5452.

For more information from Washington Department of Ecology, or to raise issues of concern or submit written comments to them, please contact:

Waste Management GENERATOR'S WASTE PROFILE SHEET

PLEASE PRINT IN INK OR TYPE

- d. Reportable Quantity (lbs.; kg.): _____ e. Hazard Class/ID #: 9
- f. USDOT Shipping Name: Waste Environmentally hazardous substances, solid, n.o.s. (polychlorinated Biphenyls)
- g. Personal Protective Equipment Requirements: _____
- h. Transporter/Transfer Station: _____

C. Generator's Certification (Please check appropriate responses, sign, and date below.)

- Is this a USEPA hazardous waste (40 CFR Part 261)? If the answer is no, skip to 2. _____ YES X NO
 a. If yes, identify ALL USEPA listed and characteristic waste code numbers (D, F, K, P, U) _____
- If a characteristic hazardous waste, do underlying hazardous constituents (UHCs) apply? (if yes, list in Section B.1.j) _____ YES _____ NO
- Does this waste contain debris? (if yes, list size and type in Chemical Composition - B.1.) _____ YES _____ NO
- Is this a state hazardous waste? _____ YES _____ NO
 Identify ALL state hazardous waste codes WPCB
- Is the waste from a CERCLA (40 CFR 300, Appendix B) or state mandated clean-up? _____ YES X NO
 If yes, attach Record of Decision (ROD), 104/108 or 122 order or court order that governs site clean-up activity. For state mandated clean-up, provide relevant documentation.
- Does the waste represented by this waste profile sheet contain radioactive material, or is disposal regulated by the Nuclear Regulatory Commission? _____ YES X NO
- Does the waste represented by this waste profile sheet contain concentrations of Polychlorinated Biphenyls (PCBs) regulated by 40 CFR 781? (if yes, list in Chemical Composition - B.1.j)
 a. If yes, were the PCBs imported into the U.S.? _____ YES X NO
- Do the waste profile sheet and all attachments contain true and accurate descriptions of the waste material, and has all relevant information within the possession of the Generator regarding known or suspected hazards pertaining to the waste been disclosed to the Contractor? _____ YES X NO
- Will all changes which occur in the character of the waste be identified by the Generator and disclosed to the Contractor prior to providing the waste to the Contractor? _____ YES X NO

X Check here if a Certificate of Destruction or Disposal is required.

Any sample submitted is representative as defined in 40 CFR 261 - Appendix I or by using an equivalent method. I authorize WMI to obtain a sample from any waste shipment for purposes of recertification. If this certification is made by a broker, the undersigned signs as authorized agent of the generator and has confirmed the information contained in this Profile Sheet from information provided by the generator and additional information as it has determined to be reasonably necessary. If approved for management, Contractor has all the permits and licenses for the waste that has been characterized and identified by this approved profile.

Mr. Pete Monsaas
Alaskan Copper & Brass Company
3223 Sixth Avenue South
Seattle, Washington 98124-3546

Dear Mr. Monsaas:

Please take the time to review this estimate for your waste disposal requirements. Univar USA Inc., through our ChemCare® services is pleased to offer the following proposal for your consideration. Through our comprehensive TSDF network of fully audited partners, Univar can offer unparalleled long-term security and peace of mind to our customers.

With the widest array of technologies available, Univar is committed to offering the highest level of recycling, incineration and secure landfill options necessary to meet and exceed Alaskan Copper and Brass's waste management needs.

The following stated pricing is contingent upon review of completed profiles and waste acceptance at the receiving facilities. If you have any questions or require additional information, please contact me at (253) 872-5051. Thank you once again for your consideration.

Treatment	Description	Unit of Measure	Price	Final TSDF
Recycling, Treatment and Disposal				
Recycle/Incineration	HID PCB Light Ballasts	Per LB	\$0.68	OSS - Phoenix
Transportation				
Supplies	Cubic Yard Gaylord Boxes (2)	Each	\$125.00	N/A
LTL - Trans	Transportation of packaged materials	Flat Rate	\$250.00	

We look forward to working with you and becoming your partner for your environmental needs. If you have any questions, please contact me at (253) 872-5051 or my cell phone (b) (6).

Sincerely,
Univar USA

Bart Drango
Account Executive
